

Montefiore Nephrology Fellowship Evaluation

Urinalysis

Fellows Name

Supervising Attending

Urinalysis number:

Date of procedure

Please evaluate the fellow in all categories below using the following scale:

- 1) Inadequate
- 2) Adequate for stage of training
- 3) Satisfactory for level of training
- 4) Excellent
- 5) Capable of doing this alone
- 6) Not applicable

Goal and Objective: Urinalysis is essential to the complete and correct evaluation of a patient's renal status. It is a key component in the nephrological work up and an essential skill to be mastered by each nephrology fellow.

Fellows will be observed preparing the specimen for microscopic exam and the slide will be reviewed by the fellow and the attending.

Evaluation of the urinalysis:

Rating

1. The fellow handled the specimen with appropriate care, precautions and safety.
2. Indications for doing the urinalysis were clearly verbalized and understood.
3. Dipstick of the urine was done correctly.
4. The fellow correctly identified the microscopic findings.
5. The fellow gave a reasonable clinical differential diagnosis of what the UA could represent in the current clinical setting.

ASSESSMENT AND EVALUATION SUMMARY:

1. Over-all performance of fellow for this procedure:
2. The fellow exhibited over-all competence in all areas of this procedure such that you assess that she/he is competent to do this procedure alone, without supervision.
