

AMERICAN SOCIETY OF NEPHROLOGY AT-A-GLANCE 2020

Since 1966, ASN has been leading the fight to prevent, treat, and cure kidney diseases throughout the world by educating health professionals and scientists, advancing research and innovation, communicating new knowledge, and advocating for the highest quality care for patients. ASN has more than 21,000 members representing 131 countries.

ASN Provides its Members and the Kidney Community

- **Education:** Continuing Medical Education (CME) through ASN Kidney Week, ASN Highlights, nephSAP, Board Review Course & Update, and distance learning programs.
- **Publications:** ASN publishes three monthly journals, the *Journal of the American Society of Nephrology* (JASN, Impact Factor 8.55), *Clinical Journal of the American Society of Nephrology* (CJASN, Impact Factor 6.24), and the new online only, open access journal, *Kidney360*. ASN also publishes a monthly news magazine *ASN Kidney News*. The publications are available in a variety of platforms, as well as a social media presence.
- **Advocacy:** ASN advocates for policies that promote the highest quality patient care, increased funding for research, and a commitment to medical education.
- **Communications and Marketing:** ASN informs its members and the public through media outreach, press releases, podcasts, social media, *Kidney News Online*, ASN Communities, as well as *In the Loop* a daily e-news briefing.
- **Research Funding:** KidneyCure (the ASN Foundation) provides more than \$3 million annually in funding for nephrology educators and clinical and basic investigators.
- **Kidney Health Initiative (KHI):** A public-private partnership between the ASN and the US Food and Drug Administration (FDA) to catalyze innovation and the development of safe and effective patient-centered therapies for people living with kidney diseases.
- **Nephrologists Transforming Dialysis Safety (NTDS):** An initiative funded by the US Centers for Disease Control and Prevention (CDC) aimed at engaging nephrologists as team leaders in transformational change to “target zero infections” in dialysis facilities.
- **Kidney Innovation Accelerator (KidneyX):** A public-private partnership between the ASN and the US Department of Health and Human Services (HHS) to accelerate innovation in the prevention, diagnosis, and treatment of kidney diseases through prize competitions.
