

Acute Kidney Injury [101-103]

- 101 AKI: Epidemiology, Risk Factors, and Prevention
- 102 AKI: Clinical, Outcomes, and Trials
- 103 AKI: Mechanisms

Anemia and Iron Metabolism [201-202]

- 201 Anemia and Iron Metabolism: Basic
- 202 Anemia and Iron Metabolism: Clinical

Bioengineering [300] – *Development or improvement of devices, biological systems, or biomedical technologies pertinent to nephrology patient care or nephrology research (e.g. artificial kidney, patient testing or monitoring device). Studies of the application of devices or technologies to treat particular diseases should be submitted to the other categories corresponding to those diseases (e.g. use of bioimpedance in monitoring body volume during dialysis should be submitted to a “Dialysis” abstract category).*

Bone and Mineral Metabolism [401-402]

- 401 Bone and Mineral Metabolism: Basic
- 402 Bone and Mineral Metabolism: Clinical

Development, Stem Cells, and Regenerative Medicine [501-502]

- 501 Development, Stem Cells, and Regenerative Medicine: Basic
- 502 Development, Stem Cells, and Regenerative Medicine: Clinical

Diabetic Kidney Disease [601-602]

- 601 Diabetic Kidney Disease: Basic
- 602 Diabetic Kidney Disease: Clinical

Dialysis [701-704]

- 701 Dialysis: Hemodialysis and Frequent Dialysis
- 702 Dialysis: Home Hemodialysis
- 703 Dialysis: Peritoneal Dialysis
- 704 Dialysis: Vascular Access

Educational Research [800] – *Methods to translate research into practical improvements in nephrology education. Methods to evaluate the effectiveness of education in nephrology and novel educational tools in nephrology and related disciplines. Includes professional education, patient education, and social media methods.*

Fluid and Electrolytes [901-902]

- 901 Fluid and Electrolytes: Basic
- 902 Fluid and Electrolytes: Clinical

Genetic Diseases of the Kidney [1001-1002]

- 1001 Genetic Diseases of the Kidney: Cystic
- 1002 Genetic Diseases of the Kidney: Non-Cystic

Geriatric Nephrology [1100]

Glomerular Diseases [1201-1203]

- 1201 Glomerular Diseases: Fibrosis and Extracellular Matrix
- 1202 Glomerular Diseases: Immunology and Inflammation
- 1203 Glomerular Diseases: Clinical, Outcomes, and Trials

Health Maintenance, Nutrition, and Metabolism [1301-1302]

- 1301 Health Maintenance, Nutrition, and Metabolism: Basic
- 1302 Health Maintenance, Nutrition, and Metabolism: Clinical

Hypertension and CVD [1401-1403]

- 1401 Hypertension and CVD: Epidemiology, Risk Factors, and Prevention
- 1402 Hypertension and CVD: Clinical, Outcomes, and Trials
- 1403 Hypertension and CVD: Mechanisms

Pathology and Lab Medicine [1501-1502]

- 1501 Pathology and Lab Medicine: Basic
- 1502 Pathology and Lab Medicine: Clinical

Pediatric Nephrology [1600]

Pharmacology (Pharmacokinetics, -Dynamics, -Genomics) [1700]

Transplantation [1801-1802]

- 1801 Transplantation: Basic
- 1802 Transplantation: Clinical

CKD (Non-Dialysis) [1901-1903]

- 1901 CKD (Non-Dialysis): Epidemiology, Risk Factors, and Prevention
- 1902 CKD (Non-Dialysis): Clinical, Outcomes, and Trials
- 1903 CKD (Non-Dialysis): Mechanisms
