

Join us at **ASN Kidney Week 2020 Reimagined**

Big advances in kidney care
come at a **molecular** level.

Exhibitor Spotlight

Discover the Genetic Etiology of Kidney Disease with Renasight

October 22 – December 4, 2020

Discover how genetic testing with Renasight can impact patient care and management in the general nephrology setting. Join the conversation to learn about:

- The clinical utility of renal genetic testing,
- Experiences with Renasight kidney gene panel and implications for patient care,
- Review of the first 400+ Renasight results including diagnostic yield, common findings, and patient cases where Renasight impacted patient management.

The Exhibitor Spotlight is not a Continuing Education (CE) activity.
