

**Coronavirus (COVID-19) [000]** – Research and clinical care pertaining to COVID-19 and related kidney health issues, including dialysis, acute kidney injury, and transplantation.

### **Acute Kidney Injury [101–103]**

- 101 AKI: Epidemiology, Risk Factors, and Prevention
- 102 AKI: Clinical, Outcomes, and Trials
- 103 AKI: Mechanisms

### **Anemia and Iron Metabolism [200]**

**Bioengineering [300]** – Development or improvement of devices, biological systems, or biomedical technologies pertinent to nephrology patient care or nephrology research (e.g. artificial kidney, patient testing or monitoring device). Studies of the application of devices or technologies to treat particular diseases should be submitted to the other categories corresponding to those diseases (e.g. use of bioimpedance in monitoring body volume during dialysis should be submitted to a “Dialysis” category).

### **Bone and Mineral Metabolism [401–402]**

- 401 Bone and Mineral Metabolism: Basic
- 402 Bone and Mineral Metabolism: Clinical

### **Development, Stem Cells, and Regenerative Medicine [500]**

### **Diabetic Kidney Disease [601–602]**

- 601 Diabetic Kidney Disease: Basic
- 602 Diabetic Kidney Disease: Clinical

### **Dialysis [701–703]**

- 701 Dialysis: Hemodialysis and Frequent Dialysis
- 702 Dialysis: Home Dialysis and Peritoneal Dialysis
- 703 Dialysis: Vascular Access

**Educational Research [800]** – Methods to translate research into practical improvements in nephrology education. Methods to evaluate the effectiveness of education in nephrology and novel educational tools in nephrology and related disciplines. Includes professional education, patient education, and social media methods.

### **Fluid, Electrolyte, and Acid-Base Disorders [901–902]**

- 901 Fluid, Electrolyte, and Acid-Base Disorders: Basic
- 902 Fluid, Electrolyte, and Acid-Base Disorders: Clinical

### **Genetic Diseases of the Kidneys [1001–1002]**

- 1001 Genetic Diseases of the Kidneys: Cystic
- 1002 Genetic Diseases of the Kidneys: Non-Cystic

### **Geriatric Nephrology [1100]**

## **Glomerular Diseases [1201–1204]**

- 1201 Glomerular Diseases: Fibrosis and Extracellular Matrix
- 1202 Glomerular Diseases: Immunology and Inflammation
- 1203 Glomerular Diseases: Clinical, Outcomes, and Trials
- 1204 Podocyte Biology

## **Health Maintenance, Nutrition, and Metabolism [1300]**

### **Hypertension and CVD [1401–1403]**

- 1401 Hypertension and CVD: Epidemiology, Risk Factors, and Prevention
- 1402 Hypertension and CVD: Clinical, Outcomes, and Trials
- 1403 Hypertension and CVD: Mechanisms

**Onco-Nephrology [1500]** – *Clinical care and research pertaining to kidney diseases in cancer patients.*

### **Pathology and Lab Medicine [1600]**

### **Pediatric Nephrology [1700]**

### **Pharmacology (Pharmacokinetics, -Dynamics, -Genomics) [1800]**

### **Transplantation [1901–1902]**

- 1901 Transplantation: Basic
- 1902 Transplantation: Clinical

**Women's Health and Kidney Diseases [2000]** – *Clinical care and research pertaining to the health of women with kidney diseases, including contraception, fertility, pregnancy, menopause, bone health, or any issue specific to women's health.*

### **CKD (Non-Dialysis) [2101–2103]**

- 2101 CKD (Non-Dialysis): Epidemiology, Risk Factors, and Prevention
- 2102 CKD (Non-Dialysis): Clinical, Outcomes, and Trials
- 2103 CKD (Non-Dialysis): Mechanisms
