

Kidney Week 2026

Exhibit Hall A, Colorado Convention Center, Denver, CO

Approximately 50% of U.S. adults with hypertension treated with medication remain uncontrolled.¹

Hypertension prevalence and control estimates among US adults aged 18 years and older with uncontrolled hypertension ($\geq 130/80$ mm Hg) based on the National Health and Nutrition Examination Survey (NHANES), 2017-2020 (n=67.9 million).
