

## Additional Mentoring Resources

[Indiana University School of Medicine](#)

<http://faculty.medicine.iu.edu/mentoring/>

This site offers faculty mentoring guidance. In addition to a discussion of mentoring benefits and models, it includes a “mentoring toolkit” with practical resources for mentors and mentees.

[National Research Mentoring Network \(NRMN\)](#)

<https://nrmnet.net/mentor-landing-page/mentor-training/>

This site offers videos on mentoring and professional development with advice to help you become a successful scientist.

[University of Wisconsin-Madison](#)

<https://ictr.wisc.edu/mentoring/>

This site offers resources for mentors and mentees focused on cultivating effective mentoring relationships, including information on mentoring best practices and the four stages of a mentoring relationship.

[University of California-San Francisco](#)

<http://accelerate.ucsf.edu/training/mdp-materials>

This site offers an extensive library of case scenarios as well as didactic materials on topics ranging from communication, diversity, and work-life balance, to institutional orientation and leadership skills.

[University of Minnesota](#)

<https://www.ctsi.umn.edu/education-and-training/mentoring>

This site offers mentor training as an effective, adaptable, and practical strategy for supporting the development of a successful research career.

[University of Pittsburgh](#)

<http://www.icre.pitt.edu/mentoring/index.aspx>

This site offers information for mentors and mentees at every stage of the mentoring relationship. Sponsored by the Institute for Clinical Research Education, it provides resources that explore topics such as deciding on the right mentoring models, communicating effectively, giving and receiving feedback, mentoring underrepresented populations, and finding strategies for problem solving.
