

HONOR YOUR MENTOR PROGRAM

The *Securing the Future Campaign's* Honor Your Mentor Program strives to recognize leading mentors in kidney research with a Career Development Grant named in their honor. If the Honor Your Mentor Program secures \$1 million in funding, ASN will make a matching gift and recognize the mentor with the largest amount raised in his or her name with a named Career Development Grant.

The Honor Your Mentors Program highlights the following mentors:

- Thomas E. Andreoli, MD
- Tomas Berl, MD, FASN
- Frank Epstein, MD
- Marilyn G. Farquhar, PhD
- Richard J. Glassock, MD
- Mitchell L. Halperin, MD
- Saulo Klahr, MD
- Donald W. Seldin, MD

This is not an exhaustive list. ASN and the ASN Foundation for Kidney Research recognize leaders in the field of nephrology through other programs. There will also be additional opportunities for recognizing leaders in the future.

To date, more than 20 leaders have been recognized:

Endowed Lectureships

- The Barry M. Brenner Endowed Lectureship
- The Christopher R. Blagg Endowed Lectureship
- The Jack W. Coburn Endowed Lectureship
- The Robert W. Schrier Endowed Lectureship
- The Michelle P. Winn Endowed Lectureship
