## Schedule-At-A-Glance
### Thursday, October 22, EDT (UTC-4)

### 9:00–10:00 a.m.
- **Live-Streamed Sessions**
  - Preserving the Tuft: New Concepts in Glomerular Disease Therapeutics, with the Michelle Winn Endowed Lectureship
  - T Cell Exhaustion: Can We Harness It for Transplantation?
  - The Who, What, and Where for SGLT2 Inhibitors in Diabetes

### 10:00–12:30 a.m.
- **Simulive Sessions**
  - Plenary: President’s Address, State-of-the-Art Lecture
  - ARPKD: Big Cysts in Little Kids
  - Critical Illness and AKI in COVID-19: What Have We Learned?
  - HIF Is Noble and Nobel
  - Improving Peritoneal Dialysis Outcomes to Increase Its Use
  - Tubular Maladaptive Responses After Injury: New Paradigm in Kidney Fibrosis, with the Barry Brenner Endowed Lectureship

### 10:30 a.m.
- Preserving the Tuft: New Concepts in Glomerular Disease Therapeutics, with the Michelle Winn Endowed Lectureship
- T Cell Exhaustion: Can We Harness It for Transplantation?
- The Who, What, and Where for SGLT2 Inhibitors in Diabetes

### 10:30 a.m.–12:30 p.m.
- **Preserving the Tuft: New Concepts in Glomerular Disease Therapeutics, with the Michelle Winn Endowed Lectureship**
- **T Cell Exhaustion: Can We Harness It for Transplantation?**
- **The Who, What, and Where for SGLT2 Inhibitors in Diabetes**
- **ARPKD: Big Cysts in Little Kids**
- **Critical Illness and AKI in COVID-19: What Have We Learned?**
- **HIF Is Noble and Nobel**
- **Improving Peritoneal Dialysis Outcomes to Increase Its Use**
- **Tubular Maladaptive Responses After Injury: New Paradigm in Kidney Fibrosis, with the Barry Brenner Endowed Lectureship**

### 1:00–2:00 p.m.
- **Live-Streamed Sessions**
  - Autosomal Dominant Polycystic Kidney Disease: Risk Assessment and Management
  - Opportunities and Barriers in Diagnosing CKD of Uncertain Etiology
  - Phosphorus Control in Hemodialysis: What’s the Optimal Strategy?
  - Strategies to Control Chronic Hyperkalemia in Patients with CKD and ESRD

### 1:00–2:00 p.m.
- **Simulive Sessions**
  - Disease Mechanisms and Treatment Concepts in IgA Nephropathy
  - From Kids to Adults: CKD-MBD Across the Life Course
  - Nipping CKD in the Bud: Childhood Precursors of Adult Kidney Diseases
  - Vanguard Medicine: Novel Therapies on the Horizon

### 2:00–4:00 p.m.
- **On-Demand Sessions**
  - A Clinician’s Guide to Managing Patients with HIV and CKD
  - Alport Syndrome: Basic Science and Clinical Practice
  - Branching Out: How Does the Collecting Duct Form?
  - Circulating MicroRNAs as Biomarkers and Therapeutic Targets in Diabetic Kidney Disease
  - Controversies and Emerging Consensus on the Use of Therapeutic Apheresis in Clinical Nephrology
  - Embracing Technology: Nephrology 2.0
  - More Than X or Y: Sex in Transplantation
  - Not to Be Overlooked: Novel Discoveries in Proximal Tubular Transport and Physiology
  - Personalizing Care in Dialysis Vascular Access: Putting the Patient First
  - Quality Metrics in CRRT: Beyond Timing and Dose, with the Burton Rose Endowed Lectureship
  - Renal Hemodynamics and Oxygenation: All You Need Is Blood and Oxygen
  - The Ups and Downs of BP Regulation and CVD
  - Thrombotic Microangiopathy in 2020: Complement at the Forefront

### 2:30–4:30 p.m.
- **Live-Streamed Sessions**
  - A Look Inside: Noninvasive Imaging of Kidney Diseases
  - Cardiorenal Connections
  - New Kids on the Block: AKI-to-CKD Progression

### 2:30–4:30 p.m.
- **Simulive Sessions**
  - Disease Mechanisms and Treatment Concepts in IgA Nephropathy
  - From Kids to Adults: CKD-MBD Across the Life Course
  - Nipping CKD in the Bud: Childhood Precursors of Adult Kidney Diseases
  - Vanguard Medicine: Novel Therapies on the Horizon

### 3:00–5:00 p.m.
- **On-Demand Sessions**
  - Breakthroughs in Anemia and Iron Management (oral abstracts)
  - Molecular Insights in Ion, Acid, and Water Handling (oral abstracts)
  - Novel Approaches to Mineral and Bone Metabolism (oral abstracts)
  - Onco-Nephrology Updates in Practice (oral abstracts)
  - Pathology of Kidney Diseases: Novel Mechanisms and Clinical Correlations (oral abstracts)

### 5:00–7:00 p.m.
- **Live-Streamed Sessions**
  - Policy in a Post-COVID World, with the Christopher Blagg Endowed Lectureship in Kidney Diseases and Public Policy

### 5:00–7:00 p.m.
- **Simulive Sessions**
  - Breakthroughs in Anemia and Iron Management (oral abstracts)
  - Molecular Insights in Ion, Acid, and Water Handling (oral abstracts)
  - Novel Approaches to Mineral and Bone Metabolism (oral abstracts)
  - Onco-Nephrology Updates in Practice (oral abstracts)
  - Pathology of Kidney Diseases: Novel Mechanisms and Clinical Correlations (oral abstracts)

---

**On-Demand Sessions** (to be released at 10:00 a.m. EDT)
- A Clinician’s Guide to Managing Patients with HIV and CKD
- Alport Syndrome: Basic Science and Clinical Practice
- Branching Out: How Does the Collecting Duct Form?
- Circulating MicroRNAs as Biomarkers and Therapeutic Targets in Diabetic Kidney Disease
- Controversies and Emerging Consensus on the Use of Therapeutic Apheresis in Clinical Nephrology
- Embracing Technology: Nephrology 2.0
- More Than X or Y: Sex in Transplantation
- Not to Be Overlooked: Novel Discoveries in Proximal Tubular Transport and Physiology

**On-Demand Sessions** (to be released at 10:00 a.m. EDT)

- A Growing Problem: Obesity and Transplantation
- Adapting Practice to a Pandemic: Focus on Home Dialysis and Kidney Transplantation
- Addressing the Complexity of Frailty: Geriatrics and Palliative Care in Nephrology
- Bench to Bedside: What’s New in Lupus Nephritis?
- Facilitating Change with Patient-Centered Interventions in Hemodialysis
- From Variant to Function in Genomic Discovery
- Heart Failure in CKD
- Making Sense Out of Nrf2
- Nephrogenesis: New Concepts in Differentiation and Maturation
- New Developments in Vitamin D Metabolism and Action
- Out on a Limb: Loop of Henle and JGA Functions
- Podocytopathies: How Far Does the Renal Biopsy Take Us?
- Renal Toxicities of Newer Cancer Therapies: A Clinicopathological Approach
- The Next Generation of Treatment for Patients with Diabetic Kidney Disease
Monday, October 26, EDT (UTC-4)

</tr>
</tbody>
</table>

**On-Demand Sessions** (to be released at 10:00 a.m. EDT)

- C3 Glomerulopathy and aHUS: From Diagnosis to Transplantation
- Cell Death in Transplantation
- Dialysis Education and Training: Novelty and Patient Adaptability
- Dialysis in Patients with Obesity
- Drug and Device Repurposing: Expanding the Therapeutic Armamentarium for Children with CKD
- Highlights from the European Renal Osteodystrophy Working Group
- On the Road to Market: Where Are KidneyX Prize Winners Now?
- Organelle Function and Dysfunction in Kidney Diseases
- Targeting Immunity and Inflammation in Polycystic Kidney Disease
- The Epidemiology and Pathophysiology of Kidney Diseases in Aged Society: Joint ASN-JSN Session
- The Hospitalized Patient with AKI: Opportunities for Enhancing Care
- The Kidney in Pregnancy: What to Expect?
- Unraveling Novel Molecular Targets in Diabetic Kidney Disease

</tbody>
</table>

**On-Demand Sessions** (to be released at 10:00 a.m. EDT)
- Beyond Gut Feelings: Novel Biological Links Between the Gut, the Heart, and the Kidneys
- Cannabinoids and Kidney Diseases
- Cellular Mechanisms Leading to Kidney Damage in ANCA Vasculitis
- COVID-19: The Pandemic and the Outpatient Dialysis Setting
- Emerging Trends in Drug-Induced Toxic Nephropathies
- Extrarenal Mechanisms of Hypertension
- I Want Muscle: The Goods and Bads of Nutrition and Exercise in Kidney Diseases
- Intercellular Communication in the Pathogenesis of CKD
- Onco-Transplant Nephrology
- Rock the Stone
- Translating Kidney Research Pathways into Novel Drugs: Lesson Learned as We Usher in the Future
- Type 1 Diabetics Are Not Little Type 2s

**Network with Other Participants in Attendee Connect.**

**On-Demand Sessions** (to be released at 7:00 a.m. PDT)
- C3 Glomerulopathy and aHUS: From Diagnosis to Transplantation
- Cell Death in Transplantation
- Dialysis Education and Training: Novelty and Patient Adaptability
- Dialysis in Patients with Obesity
- Drug and Device Repurposing: Expanding the Therapeutic Armamentarium for Children with CKD
- Highlights from the European Renal Osteodystrophy Working Group
- On the Road to Market: Where Are KidneyX Prize Winners Now?
- Organelle Function and Dysfunction in Kidney Diseases
- Targeting Immunity and Inflammation in Polycystic Kidney Disease
- The Epidemiology and Pathophysiology of Kidney Diseases in Aged Society: Joint ASN-JSN Session
- The Hospitalized Patient with AKI: Opportunities for Enhancing Care
- The Kidney in Pregnancy: What to Expect?
- Unraveling Novel Molecular Targets in Diabetic Kidney Disease

Visit the Digital Exhibit Hall.

</thead>
</table>
| 10:00–11:00 p.m. | - Preserving the Tuft: New Concepts in Glomerular Disease Therapeutics, with the Michelle Winn Endowed Lectureship  
- T Cell Exhaustion: Can We Harness It for Transplantation?  
- The Who, What, and Where for SGLT2 Inhibitors in Diabetes | - Plenary: President’s Address, State-of-the-Art Lecture |
| 11:30 p.m. – 1:30 a.m. | - ARPKD: Big Cysts in Little Kids  
- Critical Illness and AKI in COVID-19: What Have We Learned?  
- HIF Is Noble and Nobel  
- Improving Peritoneal Dialysis Outcomes to Increase Its Use  
- Tubular Maladaptive Responses After Injury: New Paradigm in Kidney Fibrosis, with the Barry Brenner Endowed Lectureship |                                                                                   |
| 2:00–3:00 a.m. | - Autosomal Dominant Polycystic Kidney Disease: Risk Assessment and Management  
- Opportunities and Barriers in Diagnosing CKD of Uncertain Etiology  
- Phosphorus Control in Hemodialysis: What’s the Optimal Strategy?  
- Strategies to Control Chronic Hyperkalemia in Patients with CKD and ESRD |                                                                                   |
| 3:30–5:30 a.m. | - A Look Inside: Noninvasive Imaging of Kidney Diseases  
- Cardiorenal Connections  
- New Kids on the Block: AKI-to-CKD Progression | - Disease Mechanisms and Treatment Concepts in IgA Nephropathy  
- From Kids to Adults: CKD-MBD Across the Life Course  
- Nipping CKD in the Bud: Childhood Precursors of Adult Kidney Diseases  
- Vanguard Medicine: Novel Therapies on the Horizon |
| 6:00–8:00 a.m. | - Policy in a Post-COVID World, with the Christopher Blagg Endowed Lectureship in Kidney Diseases and Public Policy | - Breakthroughs in Anemia and Iron Management (oral abstracts)  
- Molecular Insights in Ion, Acid, and Water Handling (oral abstracts)  
- Novel Approaches to Mineral and Bone Metabolism (oral abstracts)  
- Onco-Nephrology Updates in Practice (oral abstracts)  
- Pathology of Kidney Diseases: Novel Mechanisms and Clinical Correlations (oral abstracts) |

**On-Demand Sessions** (to be released at 11:00 p.m. JST/KST)

- A Clinician’s Guide to Managing Patients with HIV and CKD
- Alport Syndrome: Basic Science and Clinical Practice
- Branching Out: How Does the Collecting Duct Form?
- Circulating MicroRNAs as Biomarkers and Therapeutic Targets in Diabetic Kidney Disease
- Controversies and Emerging Consensus on the Use of Therapeutic Apheresis in Clinical Nephrology
- Embracing Technology: Nephrology 2.0
- More Than X or Y: Sex in Transplantation
- Not to Be Overlooked: Novel Discoveries in Proximal Tubular Transport and Physiology
- Personalizing Care in Dialysis Vascular Access: Putting the Patient First
- Quality Metrics in CRRT: Beyond Timing and Dose, with the Burton Rose Endowed Lectureship
- Renal Hemodynamics and Oxygenation: All You Need Is Blood and Oxygen
- The Ups and Downs of BP Regulation and CVD
- Thrombotic Microangiopathy in 2020: Complement at the Forefront

**ePosters available October 22 at 11:00 p.m. JST/KST.**

| 4:30-6:30 p.m. | • Plenary: Donald W. Seldin Young Investigator Award Lecture, State-of-the-Art Lecture  
• European Nephrology Highlights: Updates from the 2020 ERA-EDTA Congress  
• Kidney Architecture: Building Blocks and Organization  
• Kidneys at the Zoo: What Can We Learn from Comparative Renal Physiology?  
• Stress and Origins of Hypertension, with the Robert Schrier Endowed Lectureship  
• We Discovered Some Genes and Loci, Now What? Applied Genomics in Nephrology |
| 7:00-8:00 p.m. | • A Practical Approach to Using SGLT2 Inhibitors for Cardiorenal Protection  
• Causes and Treatments for CKD-Associated Pruritus  
• HIF-PH Inhibitors: Moving Beyond Erythropoietin and Iron Deficiency  
• Targeting Complement in ANCA-Associated Vasculitis  
• Women in Nephrology’s Nancy E. Gary Memorial Lecture |
| 8:30-10:30 p.m. | • From Discovery to Therapeutics: Have We Moved the Needle in Vascular Access Medicine?  
• Race and Ethnicity Considerations in CKD  
• Reversal of Kidney Diseases: Lessons from Diabetic and Nondiabetic Renal Injury  
• Advanced Systems to Maintain Mineral Balance  
• Best of ASN Journals  
• Glomerular Disease Pathogenesis: What’s New?  
• Prescribing Acute RRT in 2020: What We Know and What We Still Need to Learn  
• Promoting Excellence in the Prevention and Treatment of COVID-19 Related AKI |
| 11:00 p.m. – 1:00 a.m. | • Kidney STARS: Closing Event  
• Coronavirus: Research Abstracts *(oral abstracts)*  
• Diabetic Kidney Disease: From Mechanisms to Treatment *(oral abstracts)*  
• Hypertension and Vascular Disease: From the Lab to Trials *(oral abstracts)*  
• Kidneyomics: From Cysts to Populations *(oral abstracts)*  
• Pediatric Nephrology and Development: Research Abstracts *(oral abstracts)* |

### Simulive Sessions

### On-Demand Sessions (to be released at 4:00 p.m. CEST)

- C3 Glomerulopathy and aHUS: From Diagnosis to Transplantation
- Cell Death in Transplantation
- Dialysis Education and Training: Novelty and Patient Adaptability
- Dialysis in Patients with Obesity
- Drug and Device Repurposing: Expanding the Therapeutic Armamentarium for Children with CKD
- Highlights from the European Renal Osteodystrophy Working Group
- On the Road to Market: Where Are KidneyX Prize Winners Now?
- Organelle Function and Dysfunction in Kidney Diseases
- Targeting Immunity and Inflammation in Polycystic Kidney Disease
- The Epidemiology and Pathophysiology of Kidney Diseases in Aged Society: Joint ASN-JSN Session
- The Hospitalized Patient with AKI: Opportunities for Enhancing Care
- The Kidney in Pregnancy: What to Expect?
- Unraveling Novel Molecular Targets in Diabetic Kidney Disease
<table>

<tr>
<th>Time</th>
<th>Live-Streamed Sessions</th>
<th>Simulive Sessions</th>
</tr>
</thead>
</table>
| 2:00–3:00 p.m. | • Gene Therapy Enters Prime Time  
• Hypertension “Hands-On” Management  
• Membranous Nephropathy: Management in the Era of Autoantibodies | • Plenary: State-of-the-Art Lecture and 2020 ASN Business Meeting |
| 3:30–5:30 p.m. | • Beyond Glucose Control: Understanding Metabolic Basis of Diabetic Complications  
• COVID-19 Clinical Trials: The Critical Need to Include People with Kidney Diseases  
• Mediators and Protectors in AKI  
• Physician Burnout: Reclaiming Vitality in the Practice of Nephrology  
• Safety First: Building a Safe and Sound Dialysis System, with the Celeste Castillo Lee Memorial Lectureship | |
| 6:00–7:00 p.m. | • Diagnostic Controversies in Transplantation: Of Biomarkers and Biopsies  
• Novel Therapeutic Options in Hyperkalemia  
• “Pumping” Iron for CKD | |
| 7:30–9:30 p.m. | • Controversies at the Cutting Edge of AKI  
• Nephrology Quiz and Questionnaire 2020 | • Harnessing the Electronic Health Record to Improve Care in Kidney Diseases  
• Making More Out of Less: Addressing Organ Discards and Transplant Access  
• The Kidney as a Sensor |
| 10:00 p.m. – 12:00 a.m. | • AKI Mechanisms: Research Abstracts *(oral abstracts)*  
• Challenges in Clinical Transplantation *(oral abstracts)*  
• Emerging Translational Research to Improve CKD Outcomes *(oral abstracts)*  
• Halfway Through the Marathon: Clinical Candidates in Development *(oral abstracts)*  
• Peritoneal Dialysis and Vascular Access: Research Abstracts *(oral abstracts)* | |

**On-Demand Sessions** (to be released at 3:00 p.m. CET)
- Beyond Gut Feelings: Novel Biological Links Between the Gut, the Heart, and the Kidneys  
- Cannabinoids and Kidney Diseases  
- Cellular Mechanisms Leading to Kidney Damage in ANCA Vasculitis  
- COVID-19: The Pandemic and the Outpatient Dialysis Setting  
- Emerging Trends in Drug-Induced Toxic Nephropathies  
- Extrarenal Mechanisms of Hypertension  
- I Want Muscle: The Goods and Bads of Nutrition and Exercise in Kidney Diseases  
- Intercellular Communication in the Pathogenesis of CKD  
- Onco-Transplant Nephrology  
- Rock the Stone  
- Translating Kidney Research Pathways into Novel Drugs: Lesson Learned as We Usher in the Future  
- Type 1 Diabetics Are Not Little Type 2s

Network with Other Participants in Attendee Connect.
