Getting a COVID-19 vaccine helps keep you, your loved ones, staff, and patients in the facility safe. Please talk to your doctor and consider getting vaccinated!

PATIENTS
As a patient on dialysis, you are at a higher risk of catching the virus that causes COVID-19.

COVID-19 vaccination reduces your risk of hospitalization and severe illness from the virus that causes COVID-19.

Your choice to get vaccinated shows staff and other patients that you care for their safety too.

STAFF
Vaccination (for flu or hepatitis B) within the dialysis facility has a proven record of success.

COVID-19 vaccination reduces your risk of catching and spreading the virus that causes COVID-19.

Your choice to get vaccinated and stay healthy shows patients and other staff that you care for them.
