IT’S NOT TOO LATE TO GET YOUR FAMILY VACCINATED!

Vaccinate your family this flu season. It’s the best way to fight flu.

A yearly flu vaccine is recommended for everyone 6 months and older.

Vaccination is especially important for protecting people at high risk of serious flu complications, including:
- young children
- pregnant women
- adults 65 years and older
- anyone with chronic health conditions like asthma, diabetes, or heart disease.
