

Scientific Exposition

A number of businesses, non-profit societies, and other organizations participate in the ASN annual meeting (Kidney Week 2016) as exhibitors. Their participation provides meeting attendees with a venue to evaluate the latest technological, product, and treatment innovations in kidney disease, and their support helps ASN extend the vast array of educational and research opportunities the society provides members of the kidney community. ASN supports the ethical codes of conduct on interactions with health care professionals including, but not limited to, Advanced Medical Technology Association "Code of Ethics on Interaction with Health Care Professionals," the American Medical Association "Gifts to Physicians from Industry Ethical Opinion 8.0611," and the Pharmaceutical Research and Manufacturers of America "Code on Interactions with Healthcare Professionals."
