

LIVING DONOR ACT OF 2015

Promoting organ donation and protecting the rights of living organ donors

Significant and growing demand for transplantation—the optimal form of kidney replacement therapy for many patients—exists...

 **EVERY 14 MINUTES**
A PATIENT IS ADDED TO THE KIDNEY WAIT LIST

 **12 AMERICANS DIE**
EVERY DAY WAITING FOR A KIDNEY TRANSPLANT

...yet living donation rates are decreasing as the kidney wait list grows.

BY INCREASING LIVING DONATION BY 10%¹

THE LIVING DONOR ACT ELIMINATES CRUCIAL BARRIERS TO TRANSPLANT:

Protects Donors: Prohibits insurance companies from denying or limiting coverage and from charging higher premiums for living organ donors' life, disability, and long term care plans.

11% OF LIVING ORGAN DONORS EXPERIENCE DIFFICULTY SECURING OR PAYING FOR INSURANCE
AFTER THEIR PROCEDURES BECAUSE OF DISCRIMINATORY PRACTICES

Secures Jobs: Clarifies that living organ donors can use FMLA time to recover from donation surgery and maintain job security.

3-7 DAYS AVERAGE DONOR HOSPITALIZATION **1-4 WEEKS** DONORS TYPICALLY RETURN TO WORK

Educates Americans: Directs HHS to update educational materials reflecting the above policies and encourages more Americans to consider living donation.
