

Update on the Comprehensive ESRD Care Initiative

This winter, CMS plans to reopen the Request for Applications (RFA) for the Comprehensive ESRD Care Initiative to solicit additional participation and respond to stakeholder feedback. With this opening, we are particularly interested in creating opportunities for small dialysis organizations to participate and engaging with stakeholders on the quality measures and quality performance benchmarks for the initiative. Updates on the timeline for the new application period will be posted on the Innovation Center website as they become available.

CMS looks forward to continued collaboration with the ESRD community.
